

METAMORPHOSIS

₪1,941.00 - ₪25,840.00

Metamorphosis is a transformation from one form into another. Metamorphosis as the transformation of crystal into a stunning lighted jewel in any interior, creates a variable jewel that enables your own compositions. These are flawlessly presented in both craftsmanship and technical execution. The delicate geometric cut of the Metamorphosis Collection on hand-blown crystal comes alive with its internal light source, highlighting amber, clear or cigar colors. Just as stars from far-away in the sky, these seemingly small lighting objects fascinate us individually and become even stronger in groups.

BOMMA Glassworks and Rückl jointly introduce Metamorphosis, a new collection of crystal lighting by Rony Plesl. This collection combines the talents

of these sister glassmaking brands - the breathtaking art of hand-cut crystal from Rückl, with exceptional technical solutions and the principle of light constellations typical for BOMMA.
